OUR COMPANY

WZI Flow Control, Ltd. a subsidiary of WuZhong Instrument Company, Ltd. began business in 1959. As China's largest control valve manufacturer, WZI has a state of the art 2.8M sq/ft production, foundry and corporate office campus. With over 1000 employees, WZI is expanding globally with increased manufacturing, sales and service capabilities to better serve our rapidly growing global customer base. As a member of the highly acclaimed China Automation Group (www.cag.com.hk), and publicly listed on the Hong Kong Stock Exchange, WZI has successfully supplied over 1 million valves for the global market. With our 100% Testing and Serialization Program, WZI prides itself on our high quality, competitively priced products with superior delivery from our new sales and service center located in Houston, Texas. Our Los Angeles, California office designs new products and makes continuous improvements to our broad existing product offering.
